Solid Pal

To respond to the constant challenge for enhanced productivity, Groupe CADEC has developed a real solid pal, the GC-Pallet Robot Palletizer.

It's one of Groupe CADEC's solutions for maximizing the efficiency of its dedicated operations to boost your performance.

GC-Pallet delivers versatility:

- Handles up to 4 boxes or cartons at a time (or other products).*
- Accommodates 1 to 4 infeed or outfeed conveyors for different products.*
- Features a unique, multifunctional, and self-adjusting manipulator gripper.*
- Uses "Quickconnect" fittings for all connections.
- Allows cell access without shutting down the robot (enhanced productivity).
- Enables configuration of palletizing patterns with user-friendly and intuitive MOTOPALLET 3-D software.
- Offers many other advantages.

GC-Pallet is a powerful, accurate solution to productivity problems.

* Standard models (other configurations available; contact our sales department).

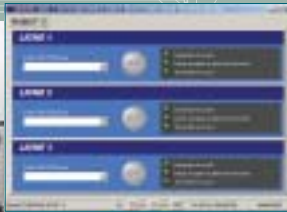

Solid Pal

We developed our palletization solution to respond to your company's specific needs. We have built into it all the attributes required to make it a real **solid pal**.

- MOTOMAN SP series industrial palletizing robot.
- Handles boxes from 8" to 48" in length with a single auto-adjusting hand.*
- Robot loads pallets and slip sheet.
- Generates multiple palletizing patterns with user-friendly MOTOPALLET software.
- Includes built-in air and electrical network.
- Features simple preventive maintenance.
- Offers production workers a streamlined operator interface (GC-PAL-DCI).
- Makes it easy to change products during a production run.

Available options:*

- Easyway / Hardway combination infeed conveyor
- Easyway / Hardway outfeed conveyor
- Vision recognition, bar code
- Custom applications

* Standard models (other configurations available; contact our sales department).

Groupe CADEC, the Solution People, deliver an approach centered on efficiency.

- Robotic handling and packaging solutions
- 3-D engineering simulation
- Systems engineering
- Custom systems and automation
- Design and technical support
- Turnkey projects
- 24-hour service, 7 days a week
